

EPIC Roasthouse is a restaurant that was developed among friends inspired by the love of food and wine. Chef Jan Birnbaum and Restaurateur Pat Kuleto's vision for EPIC Roasthouse sprung from one of San Francisco's darkest moments, The Great Earthquake of 1906 and The Great Fire that swept The City just hours later. It claimed countless landmarks and some of San Francisco's finest as they fought heartily to combat the blaze. The façade of EPIC Roasthouse is modeled after the salt water pumping station The City built to assist San Francisco's fire cisterns. Like a Phoenix rising from the ashes, our City rose to be one of the most loved food and wine epicenters in the world.

Interwoven through the fabric of this list are wines from European countries, many of whose immigrants lived in San Francisco both during and after The Great Fire of 1906. However, the heart and soul of the EPIC wine program is focused on the 'backyard' of San Francisco, the Napa and Sonoma Valleys. Our sommelier team looks forward to adding to your dining experience by helping you select 'one of the classics' or from our extensive list of 'rising stars.'
